

V&V Manager (Medical Device Testing)

Salary Range: £35,000 - £50,000

Location: Harrietsham, Kent

The Story:

Established in 1976, Bedfont is an award-winning medical technology company based in Harrietsham, Kent. Its breath analysis medical devices are exported globally thanks to its network of carefully selected distributors.

The Challenge:

Healthcare is evolving and the market for breath analysis monitors is expanding. Bedfont are looking for hard-working, like-minded, and passionate individuals to join the Bedfont Family to help achieve its goal of innovating healthcare worldwide.

The Benefits:

- 25 days paid holiday plus bank holidays
- Private healthcare
- Optical allowance
- Pension scheme
- Bonus scheme
- Hybrid Working
- Employee Assistance Program
- Rewards App
- Social events
- Well-being warriors
- Bike-to-work scheme
- Employee awards
- Free on-site parking
- Training & Development Opportunities
- Uniform

Your Mission:

As a Verification & Validation (V&V) Manager, you will manage the V&V team and hold a pivotal position in safeguarding the quality, safety, and effectiveness of our medical devices through rigorous V&V procedures. You will work closely with cross-functional teams to design, develop, and execute comprehensive test plans, while adhering to regulatory standards and industry best practices.

Roles and Responsibilities:

- Assist in the design, procurement and commissioning of test equipment, jigs and fixtures
- Report any errors or bugs in the relevant queue or issue register to ensure prompt resolution
- Analyse test results and compile comprehensive reports, maintaining technical documentation
- Perform regular quality control testing of test equipment and organise test data for analysis
- Draft protocols and V&V test plans, using product knowledge to determine required outputs and assess compliance with predefined criteria
- Manage a small V&V team of an engineer and technician
- Conduct comprehensive V&V testing of product software, hardware (Electronics & Mechanical) and firmware
- Create and maintain V&V procedures, test software and templates
- Provide evidence of both internal and external regulatory compliance
- Develop and execute usability engineering processes (with IEC 62366-1/FDA guidelines) to ensure safety and efficacy of medical devices for end-users
- Ensure adherence to ISO 13485 standards (training will be provided)
- Complete the testing section of technical files prior to product launch
- Articulate comprehensive justifications for determining sample sizes
